

3. ENZO Lecture

KIT Graduate School ENZO

Carbon Dioxide Removal and the Goals of the Paris Agreement

Friedemann Gruner,

Mercator Research Institute on Global Commons and Climate Change (MCC)

December 14, 2022 / 6 pm

Engler-Bunte-Institute

KIT, Campus South, Bldg. 40.50

To achieve the temperature targets of the Paris Global Climate Agreement, negative emissions are a necessary complement to CO₂ mitigation measures. The event will provide an overview of the need for CO₂ removals, different removal options, and some political and economic dimensions of the debate.
